"A year that will always stand out was when one camper in my group was hearing impaired. An older camper in a different sibling pair had taken a sign language course in school and early in the week took time to teach others in our group some basic sign language skills. His proactive actions set the tone for a culture of care throughout our group for the entire week. It was inspiring to watch our kids model such a beautiful example of inclusion in action." - Heather C.

"The talent show is my favorite memory from camp each year. I love to see all of the different acts our kids pull together - from funny to impactful I am either laughing or crying (or both) and always impressed. I also loved the retreat with the reptile exhibit. I got to hold a tiny alligator!" - Jen S.

"I love volunteering with Sibling Connections because I know how important having a sibling in your life is. I think of my brother and our childhood and all the great memories we shared. I hope I can help other siblings create similar experiences they'll cherish together for years to come." - Meredith P.
